

Year 3 topic hook for Beatrix Potter
23rd April 2019

We all returned to school after our fantastic Easter breaks. Mrs Payne had been busy planting some vegetables in the allotment area over the Easter holidays and was excited to show us what she had done!

We all headed over to the allotment area to see the juicy lettuces and crunchy carrots. When we arrived at the allotment, we were all shocked! Shocked because there were no vegetables! All we could find was some carrots that had been nibbled by a mysterious creature.

We then explored to see if we could find any more clues to help us work out what had been happening. We discovered many different items and clues!

Have a look at some of our fantastic pictures!
